

Correction: A cross-sectional examination of medicinal substance abuse and use of nonmedicinal substances among Canadian youth: findings from the 2012–2013 Youth Smoking Survey

The research article that appeared in *CMAJ Open* Nov. 5, 2015,¹ contained an error in the third row in the stub column of Table 3.

The sex should have read female and not male; male was the reference category.

CMAJ Open apologizes for any inconvenience this error may have caused.
