

Correction: The impact of the introduction of a formulary into a large Canadian private drug plan: an interrupted time-series analysis

Errors occurred in an article published July 18, 2019.¹

In the abstract Results section and in the last paragraph of the main Results section, “\$1.32 million” should have read “\$13.2 million.” In the last paragraph of the main Results section, “\$2.67 million” should have read “\$26.7 million.”

These errors have been corrected at cmajopen.ca.
