

Appendix 12. Mortality by month between March 1 and September 30, 2020

Level of care	March	April	May	June	July	August	September
Including all individuals							
Frequency (proportion)*	457 (7.9%)	1,818 (13.4%)	514 (5.4%)	100 (1.9%)	33 (0.9%)	17 (0.6%)	98 (1.1%)
Excluding individuals from long-term care residents							
Frequency (proportion)*	271 (5%)	484 (5%)	174 (2%)	43 (1%)	25 (1%)	13 (<1%)	55 (1%)

*Proportion is calculated by taking deaths as the numerator of all individuals who had an episode date in that month over the total number infected within that month using the episode date
