INSTRUCTIONS

Column C: For each year, indicate the number of students graduating.

Column D: Indicate the number of students that completed any type of palliative care rotation at any point in their training. Count each student only once.

Columns E through L: Provide details of the rotations, as shown in the example for 2007

Graduating year	Number of students graduating in the current year	Number of students who completed a palliative care clinical rotation at any point in their training. Report each student only once, even if they completed more than one rotation	Type of rotation		Length of rotation (if known)				Other (please specify in the comments)	Comments
			Mandatory	Elective	1 week	2 weeks	4 weeks			
2007 (example)*	200	75	0	78	5	65	6	2	The 2 "other" students completed a 6-week rotation. Three students did a 1-week rotation plus a 4-week rotation.	
2008										
2009										
2010										
2011										
2012										
2013										
2014										
2015										
2016										

*In the example, 200 students graduated from medical school in 2007. Of these, 75 individuals received palliative care clinical rotations. None had mandatory rotations.

Most had 2 week rotations. Five had 1 week, 6 had 4 weeks, and two had a 6 week rotation.

Three of the five students who had 1 week rotations also completed an additional 4-week rotation.

Postgrad Data Collection form for reps to discuss with their schools (July 10, 2017)
